

Community and environmental services center

Beginning of awareness lectures about community and environmental services center

The culture and heritage unit considered as an effective unit in the center so some awareness lectures targeting the kids and students of saint Katherine , informing them about the center and its activity and some visitation to the center will be carried on at the beginning of year .

Subject:-

A simplified lectures about the center to the students and the local inhabitants including these points:

1. What is the community and environmental services center?
 2. Who are the partners of the project?
 3. Where is the center?
 4. Why the funding agency accepted to support the project?
 5. What is the services available in the center ?with illustrations on every unit .
 6. What is the final beneficiary of the project?
- The local inhabitants showed an obvious reaction which mean that they were satisfied and happy by the project activity.
 - The unit announced about a competition between the students of saint Katherine in drawing and 33 student from different schools of saint Katherine sent their drawings till now.
 - An announcement about the natural biocide produced by the center inside saint Katherine city and the southern part of the protectorate too.
