

Report of December,2008

1. An environmental training program for the students and their teachers is carried on where they were trained on how to describe the environmental parameters correctly including a lot of information about Saint Katherine protectorate, they knew what is the meaning of biodiversity? And how to accommodate with mountain life.
2. Announcing about a new competition between the schools students, who will show the most beautiful picture for saint Katherine will be the winner.
3. The winners in the last competition awarded their prizes.
4. Revising the drawings of the kids during the project period and the best pictures were chosen to be printed in a booklet.
5. The unit will try to collect the Bedouins vocabulary where there are some words which are rarely used nowadays and teach the kids the importance of their heritage and culture.
