

Report of July 2008

1. The kids participated in the unit activity this month through reading the books and magazines from the unit library which include a lot of kid's books, scientific books and a lot of the cultural books. The kid's supervisor discussed the kids on the benefit they got from the books reading.
2. The kids enjoyed drawing and playing with puzzle games in the center which enhance their skills.
3. They learned a little skill about cultivation and participated in a training program to learn a simple method of cultivating crops.
4. The city students and kids participating in the unit activities shared Cairo university students in the environmental day activities where, they collected plastics from different parts of Saint Katherine and aimed to keep Saint Katherine free of plastics to avoid the dangerous effects of it on animals, plants and human health.
